Sport In Street
by Ayhan Guneri

Retail: We started the design with various mood boards determining different fields of interest of the youth. The themes of technology, social networking, street art and nature were adopted to create a street culture store. Industrial materials were used in all furniture throughout the store to create a cool outlook together with natural materials warming up the atmosphere striving for the sensitive balance. The intricate design causes great excitement in the hidden corners of the store. High display stands put in middle make the customers curious by bringing in secrecy.
